

## MORA GRAFFIATO

### DESCRIPTION:

is a decorative white & colored finish coat based on modified acrylic polymer. It includes a special selection of graded quartz sand and fillers that contribute to a unique workability properties while giving an exceptional aesthetic appeal to the product. Special additives improve the product resistance to water and UV lights, thus recommended to use as a final coat for exterior application for all cement and concrete surfaces after paint them by a suitable base have the same colour.

### TECHNICAL SPECIFICATION:

Colors	available in all color
Ph	8 -9
Drying time	24 hours minimum
Time mechanical	7 days
Paste density	1.7g/m <sup>3</sup> ASTM D1475
Alkali resistance	Pass ASTM D1308
Heat resistance	Pass ASTM D573
Water resistance	Pass ASTM D870

### DIRECTION FOR USE:

surfaces must be clean, sound and free from greasy matters and dust. Remove all traces of paint, mould oil which may affect the adhesion. Before the application the substrate must be sufficiently cured in a way that any shrinkage has already occurred. Prime the substrate one day before the application.

### STIRRING :

Stir well before use ,because big particles may be settling during storage.

### THINNING RATIO:

Product ready to use

, (1-2)% of tap water can be used for thinning if required depending on the weather and application conditions .

### APPLICATION TOOLS :

plastic trowel in case of fine size but in big & medium size using a stainless steel trowel and rapone trowel.

### COVERAGE:

1.7 to 1.9 kg per m<sup>2</sup> in case of fine size, depending on surface condition

2.5 to 3 kg per m<sup>2</sup> in case of medium size, depending on surface conditions  
3 to 5 kg per m<sup>2</sup> in case of big size, depending on surface conditions

**STORAGE:**

12 month under suitable storage conditions

**SAFETY PRECAUTIONS:**

Avoid prolonged contact with skin. Wear protective gear for hands & eyes. Splashes on the skin should be washed away by cleaning with soap and water.
